

Pic Kids App

Pic Collage is an app that allows you to create a digital collage/poster

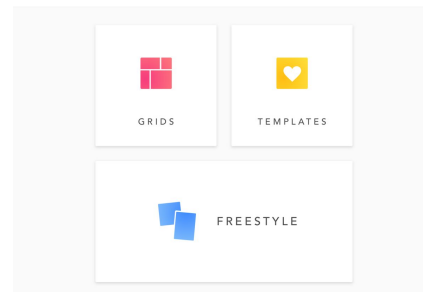

Disable Web Search

- Settings > Pic Kids (left side) > Allow Photos from the Web (right side)
- Turn ON (green) or OFF depending on your preference

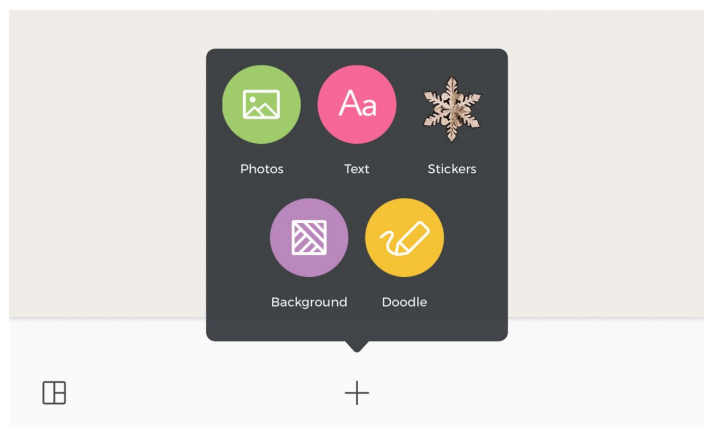

- Grids: grid for 3, 4, 5 etc pictures
- Freestyle: blank slate
- Template: pre-designed template

**I would stay away from templates because it doesn't give students creativity/ownership. Use only when necessary.*

Freestyle: Press the plus button at the bottom middle to add:

- photos, text, stickers, background, doodle
- Web search is available IF you did NOT disable websearch

Grid: A grid will allow you to apply constraints on how photos appear.
